

## **HolistiCyber Announces Partnership with Mexico's SeguriData for 2019**

*Cambridge, MA*—HolistiCyber is pleased to announce their new partnership with SeguriData. SeguriData is a world class Mexican company founded in 1996. They are a pioneer in data security innovation, through the development and implementation of cryptographic software (PKI), and mainly specialize in Electronic Signature Solutions, Digital Certificates and Time Stamping.

SeguriData has a strong cyber security consulting practice. HolistiCyber will help them enhance their offerings, and in turn provide the most advanced cyber security programs available through HolistiCyber.

Ran Shahor, CEO and founder of HolistiCyber, said, "We are pleased to be partnered with SeguriData in 2019, as both companies will bring added strengths to the other. It makes us a more comprehensive company overall as we continue to offer our expertise in Cyber Security in the Mexican Market."

Javier Alarcon, CEO of SeguriData, agrees. "Our mission is to protect digital information throughout its life cycle, and our partnership with HolistiCyber will help us bring additional services to our current clients. Meeting the demand of cyber security in this day and age is of utmost importance to our customers."

ABOUT: HolistiCyber was founded with a mission to assist corporations and businesses in defending themselves in a new phase of evolution in cyber threats -- not only in volume, but the level of sophistication. Hackers, often backed by Nation States, use tools developed by the National Security Agency and other top worldwide defense agencies. These have now leaked to the Darknet.

Our holistic approach includes a comprehensive understanding of your business processes, as well as identification of critical and strategic assets, supply chain, human resources, and physical security. All of this comes from the viewpoint of highly sophisticated hackers and attackers-- defending your organization from top to bottom. HolistiCyber brings years of experience in both the public and private sectors.

Our certified experts are cyber security veterans of the Intelligence branch of the Israel Defense Forces (IDF). These world-class experts have served at the front-line of critical nation-state cybersecurity, both in offensive and defensive operations. Our team of expert analysts perform sophisticated, advanced nation-state level cyber security testing and assessments, working with your busy IT staff. HolistiCyber has become the trusted cyber security advisor to leading organizations globally.
